

## 15th Annual International Radiance Workshop

Manens-Tifs s.p.a, with the collaboration of Eurac, promotes and arranges the 15th Annual International Radiance Workshop that will be held for the first time in Italy, in its headquarters in Padua, on 29, 30 and 31 August. Every year the international community involved in the use of RADIANCE meets to update about the latest developments and exchange experiences and case studies. The international event is open to participants from all over the world and brings together researchers and students, consultants and engineering companies, corporate officials and factories, designers using Radiance in their professional practice and linked to products for artificial lighting and for building wrappers.
