

Subject:

[Energies] Invitation to Contribute to the Special Issue "Residual Biomass Conversion to Bioenergy"

Dear colleague,

As **Guest Editor**, I cordially invite you to submit a manuscript for consideration and possible publication in a special issue on "Residual Biomass Conversion to Bioenergy" to be published in *Energies* (<http://www.mdpi.com/journal/energies>), an open access journal published by MDPI online monthly. Since its launch in 2008, the journal has been indexed by Science Citation Index Expanded, COMPENDEX and other large databases. The latest Impact Factor for 2018 is 2.707.

The researches to be published on the Special Issue on "Residual Biomass Conversion to Bioenergy" should aim to thoroughly investigate the different issues arising from the use of residual biomasses as energy source. The main challenge is the development and exploitation of systems that can be effectively sustainable both from the environmental and economic point of view. Thus, many topics of interest can be included. Up-to-date researches involving scientific, technical, economic, and environmental issues arising from the use of biomass resources are welcome. In particular, research papers on processes and technologies for advanced pretreatment of raw materials, fermentation, post-treatment and their integration are strongly encouraged. Studies for integrating the production of biofuels with the exploitation of bio-raw materials and the production of high added value molecules in a sustainable framework are also welcome.

The deadline for manuscript submission is **30 September 2020** (but an extension can be granted, if necessary).

For more details, please visit the website:

https://www.mdpi.com/journal/energies/special_issues/Biomass_Conversion_Bioenergy

Please let me know if you and your colleagues are interested in submitting a manuscript for this special issue.

Thank you and looking forward to hearing from you.

Prof. Dr. Biagio Morrone

Guest Editor of Special Issue "Residual Biomass Conversion to Bioenergy"

P.S. Submission Introduction

Please find below a simple guidance of submission:

1. First-time users are required to register themselves before making submissions at <http://susy.mdpi.com/>.
2. Enter your account, click "Submit Manuscript" under Submissions Menu.

3. Fill in manuscript details from Steps 1 to 4:

Journal: Energies

Special Issue: Residual Biomass Conversion to Bioenergy

4. Clicked the "submit" button after you finished all the steps. An auto-generated email will send to your mail box to inform you that your submission is successful.
