

Dear Colleagues,

I am writing to inform you as guest editors of a special issue named “Architecture and Indoor Environmental Quality” on the journal of Sustainability <https://www.mdpi.com/journal/sustainability>.

This Special Issue aims to collect papers on indoor comfort and health. Both reviews and application-specific research papers are welcome. Review papers should present comprehensive reference information and the state-of-the-art in the subjects considered. The studies related to new building service components or lightening devices available on the market and/or recently developed in the literature could be presented and analyzed. Papers selected for this Special Issue will be subject to a rigorous peer review procedure with the aim of rapid and wide dissemination of research results, developments, and applications. All the specific information about the Special Issue are available at the link:

https://www.mdpi.com/journal/sustainability/special_issues/architecture_indoor_environment_quality.

We are preparing a list of potential authors to be invited to submit their manuscripts to this special issue and in particular the editorial board of the journal of Applied Thermal Engineering asked us to invite only distinguished experts in the field of Indoor environmental quality and energy in buildings.

We are pleased to invite you, as an expert in the mentioned field, to contribute to this special issue. Thus, you are welcome to submit a research article about advanced sustainable architecture, indoor environmental quality and building performance; if you are willing to make a contribution, we kindly ask you to respond to this email at your earliest convenience with your proposed title and abstract by 15 November 2020. After a rapid evaluation based on the scope and relevance, we will ask you to prepare the manuscript, and the formal invitation letter will be also sent to you via the journal office. The deadline for the manuscript submission is 15 April 2021.

Looking to hear from you.

Best Regards,

Prof. Dr. Paola Ricciardi

Dr. Elisa Belloni

Guest Editors
