

The 8th Micro/Nanoscale Heat & Mass Transfer International Conference (MNHMT2027) is set to be held in Napoli, Italy, from January 9-11, 2027. This event, in honor of Professor Chang-Lin Tien (1935-2002), continues the previous well-attended conferences held in Tainan (January 2008), Shanghai (December 2009), Atlanta (2012), Hong Kong (2013), Singapore (2016), Dalian (2019), and Nottingham (2024).

Research and education on micro/nanoscale heat and mass transfer have advanced rapidly over the last three decades through many dedicated individuals and team efforts, with direct impact now extending into various fields in science, engineering, and technology.

The conference is intended to provide a forum for researchers, educators and practitioners around the world to exchange ideas on the state-of-the-art research and development and identify future research needs in this interdisciplinary field. The conference will include keynote and invited presentations, contributed oral and poster presentations, as well as panel discussions on the current status and future opportunities, and many networking opportunities.
